Hotel & Conference Venue

The Third Arab Water Week will take place in **King Hussein Bin Talal Convention Center (KHBTC)**
Managed by Hilton, Dead Sea, Jordan

This stunning conference center is uniquely located at the lowest point on earth on the shores of the Dead Sea in Jordan. The convention center is situated among famous attractions such as **Mount Nebo, the Baptism site, Madaba and the Mujib Nature Reserve.**

KHBTC hosted a 2007 regional meeting of the World Economic Forum and meetings of the International Monetary Fund.

Special rates for ACWUA guests are given:

ROOM TYPE (Single/Double)	ACWUA Special Rates
Single Room	125.00 ++ (JOD)
Double Room	135.00 ++ (JOD)

All above mentioned rates are in Jordanian Dinars & subject to Service charge (10%) & Governmental tax (currently 7%).

The above mentioned rates are on BB, quoted per room, per night.

To book your room

Mr. Firas Kheir - Director of Sales e-mail : Firas.Khair@Hilton.com
t: +962 6550 6300 - f: +962 6550 6310 - PO Box 4434 - Amman 11953 Jordan

Dead Sea Attractions

One of the most spectacular natural and spiritual landscapes in the world is the Jordanian east coast of the Dead Sea; the lowest point on the face of the earth - over 400m (1,312 ft.) below sea level.

The leading attraction at the Dead Sea is the warm, soothing, super salty healthy water (most salty sea in the world), the luxuriated black, stimulating mud and the gently diffused rays of the Jordanian sun, altogether form the secret mix of the well-reputed therapeutic effects of dead sea minerals that heal many diseases and skin problems.

Organizers:

Partners

Under the Patronage of the Jordanian Minister of Water & Irrigation,
H.E. Dr. Hazem El Naser

The Third Arab Water Week

11-15 January, 2015

Innovations & Sustainable Solutions

The 3rd Arab Water Week (AWW) is an international meeting in the Arab region which tackles water management issues through establishing innovative partnerships and platforms of collaborative work on water issues in the region. The importance of this meeting lies in providing a platform for greater coordination among the existing network of key stakeholders active in the water sector in the region.

The 3rd Arab Water Week (AWW) does not only provide an opportunity to enhance communication flows, synergies and the sharing of successful experiences, but as well, it will facilitate the creation of new partnerships that complement and maximize the impact of on-going work in this sector for the benefit of all countries in the region.

Why to attend the Arab Water Week?

The **Arab Water Week** is an important and distinctive opportunity for water and wastewater management community in the Arab world and MENA region, it is the point where water management professionals, private sector, and institutions of all types meet to exchange ideas, knowledge and experiences, discuss problems and get exposed to state of the art new technologies and solutions. The 3rd Arab Water Week will provide a broad technical presentation and policy-based program, along with a specialized exhibition (The 3rd Arab Water Trade Fair) targeting water supply and wastewater vendor's and other service providers in the water sector.

Who will attend?

ACWUA expects more than 500 participants and delegations to attend the third Arab Water Week in Dead Sea Area. Many will be coming from ACWUA membership comprising of more than 200 individual members, more than 106 water and wastewater utilities from 18 Arab Countries; Algeria, Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Palestine, Saudi Arabia, Sudan, Syria, Tunisia, United Arab Emirates and Yemen.

The **Arab Water Week** is also aimed at senior decision makers from public and private water and wastewater utilities/water supply companies, water ministries & authorities, environmental agencies & ministries, municipalities, utility operators, private sector companies and consultants and educational institutions across the region.

Invitation to Submit your Paper:

Speakers who are interested in presenting a paper should send an abstract for refereeing. Paper proposals will be selected by the conference scientific committee to cover different areas, methods, approaches and positions.

Conference Themes and Topics

Speakers from the Arab region and international water community are welcomed and encouraged to submit their paper proposals to cover one of the conference themes:

- 💧 Innovations and sustainable solutions to reduce Non-Revenue Water
- 💧 Energy Efficiency dilemma in water and wastewater utilities
- 💧 Cost recovery and financial sustainability
- 💧 Best practices in Asset Management and cost life cycle
- 💧 Social responsibility and water for marginalized people via effective tariff restructuring
- 💧 New innovations in capacity building and training for water utilities
- 💧 Certification programs for water and wastewater utilities

- 💧 Water safety plans and water quality monitoring perspectives from watershed to end user
- 💧 Wastewater treatment and reuse, new aspects for intelligent planning
- 💧 Decentralized wastewater treatment for rural and remote communities
- 💧 Water utilities adaption to climate change, current status and future perspectives
- 💧 IWRM and good water governance in the Arab region
- 💧 Water modeling as a tool for integrated management of water resources
- 💧 Role of participatory and cooperative approaches in water management
- 💧 Trends and lessons learned from water utilities reform
- 💧 Automation and modernization as cost effective tool for sustainable water resources management
- 💧 MDG+ initiative towards sustainable water resources management within the Sustainable Development Goals (SDG's)
- 💧 Benchmarking as a tool for optimizing water and wastewater operations
- 💧 Water public action and awareness in a fast changing world
